VIKRAM PATEL - DEVOPS & CLOUD ARCHITECT

Email: vikram.patel@example.com | Phone: +91 9988776655 | Hyderabad, India

PROFESSIONAL SUMMARY

DevOps Engineer with 4+ years of expertise automating CI/CD pipelines, container orchestration, infrastructure as code (IaC), and cloud infrastructure monitoring across AWS and GCP environments.

TECHNICAL & CORE COMPETENCIES

Cloud Platforms: AWS (EC2, S3, EKS, RDS, VPC, CloudWatch), Google Cloud Platform (GCP).
CI/CD & Containers: Docker, Kubernetes, Helm, Jenkins, GitLab CI, GitHub Actions, ArgoCD.
Infrastructure as Code: Terraform, Ansible, CloudFormation.
Scripting & Monitoring: Bash, Python scripting, Prometheus, Grafana, ELK Stack.

WORK EXPERIENCE & PROJECTS

Senior DevOps Engineer | CloudScale Networks (2022 - Present)
- Architected production Kubernetes clusters on AWS EKS serving 10M+ daily active users with 99.99% uptime.
- Automated multi-stage CI/CD pipelines using GitHub Actions reducing release cycle time from 2 days to 30 minutes.
- Provisioned modular cloud infrastructure using Terraform, enforcing strict security compliance.

Cloud Operations Engineer | Infrastructure Hub (2020 - 2022)
- Managed Docker containerization of legacy monolithic applications into microservices.
- Configured real-time system health alerts using Prometheus and Grafana dashboards.

EDUCATION & CERTIFICATIONS

B.Tech in Computer Science | National Institute of Technology (2016 - 2020)
Certifications: AWS Certified Solutions Architect - Associate, Certified Kubernetes Administrator (CKA).
